

<u>Variety</u>	<u>Days to Maturity</u>	<u>Type*</u>	<u>Plant Description</u>	<u>Picture</u>
Gourds				
Apple	110	OP	Apple-shaped, 8-10" fruits have a smooth green skin with lighter green speckles turning tan with brown speckles when dried. Vines are very vigorous and can reach 25'. Grow on trellis for best shape.	
Autumn Wings	95-100	OP	Spoon-shaped, 8-12 in. long gourds have a bulbous, ridged or "winged" bottom and thin neck. Various colors and markings. Great for painting and crafts.	
Birdhouse	110-125	OP	Gourd has a broad bottom with a thinner, bulbous neck. Grows to 10-12" long and is pale green turning to white or light brown. When dried, yields durable bottles, birdhouses, and shakers.	
Bottle - Baby	100	OP	Mini bottle gourds are 4" long by 2" wide with a large bulbous blossom end, narrow neck, and smaller bulbous stem end. Cute for crafts!	
Caveman's Club	120	OP	Dark green, glossy, knobby gourds have a bulbous end and a long, slender neck. For a straight neck, trellis. Harvest when stems have browned.	
Daisy	95	F1	Gourd mix named for the daisy pattern on the stem end. Fruits average 5-8 oz and come in green, orange, yellow, and white combinations. Festive for fall décor!	
Galaxy of Stars	100	F1	Small gourds shaped like 5-pointed stars with stripe patterns in shades of green, orange, yellow, and white.	
Gizmo Mix	95	OP	A mixture of winged gourds ranging from dark green, orange, yellow, light green, and white in various combinations. The gourds measure 3-5" high x 6-8" wide at the tips of the wings. Plants are compact and great for small gardens.	
Goblin Eggs Mix	80-95	OP	Mix of 3", egg-shaped gourds in stripes, bi-color, solids, and patterns. Charming and decorative.	
Goonies Mix	100	OP	Similar to a larger version of Gremlin gourds, Goonies are a collection of medium to large, 8-12", warted gourds shaped like stars, wings, acorns, mushrooms, necks, and more in many colors and patterns. Very spooky! Vigorous vines are easy to train on a trellis.	
Gremlin Mix	95	OP	A collection of small to medium, 5-7 in., warted gourds, shaped like stars, wings, acorns, mushrooms, necks, and more in many colors and patterns. Amazing! Vigorous vines are easy to train on a trellis.	
Harrowsmith Select Mix	95	OP	Another fun mix of diverse shapes and colors including warted pears, dumplings, patty pans, and cheeses in cream, yellow, orange, and green.	
Indy Mix	95		Mixture of many kinds of mini, very warty gourds in a wide range of shapes and colors. Easy to train on a trellis.	
Long-Handled Dipper	120-125	OP	Gourds have a 4-6", oval-round bulbous end with a 12", slender handle. Dry and use as ladle or dipper. Fun for crafts!	

<u>Variety</u>	<u>Days to Maturity</u>	<u>Type*</u>	<u>Plant Description</u>	<u>Picture</u>
Luffa	90-120	OP	Grown for its fibrous flesh which, when dried, makes bath sponges. Can also be harvested at 2" to eat as baby vegetable. Vigorous vines spread 12'. Grow on a sturdy trellis to get the best shape and quality. Let dry to brown on vine, then peel for sponge.	
Martin House	100	OP	A favorite gourd for making birdhouses with a large bulb on bottom and a tapered stem end - pear or tear drop shaped. Vine produces good yields of 12-16" tall by 10-12" wide gourds.	
Snake	120-125	OP	3-5' long, thin fruits are light green. Grow on the ground for serpentine shapes or on a trellis for straight fruit. The shell is hard when dried. Can be harvested at 6" and prepared like summer squash.	
Speckled Swan	120-125	OP	Fruits have a spherical bottom with a graceful, narrow, curved neck and oblong bulbous head and are dark green with light spots. Grow to 10-15" tall. Beautiful for crafts and fall decoration.	
Ten Commandments	95-125	OP	AKA Crown of Thorns. Softball size gourds have 5 pairs of prongs or fingers that point toward blossom end. A mixture of stripes, mottling, and colors. Great for crafts and décor.	
Tennessee Spinning	90-100	OP	Green striped gourds grow to 2-5", are bottle shaped, and have a hard shell when dried. Named for their use as a spinning toy by children.	
Turk's Turban	95	OP	A uniquely shaped heirloom that looks like a large mushroom with a solid or mottled cap and green and white striped base. Fruits can be 9" across and 3-7 lbs.	
Winged Mix	110	OP	A highly decorative mix of winged and warty gourds in a variety of colors and patterns.	
<u>Pumpkins</u>				
Atlantic Giant	120-130	OP	Enormous orange or pinkish pumpkins that commonly reach 50-100 lbs., though 200-300 lbs. or more is possible with certain cultural practices. The flesh of smaller fruits is good for pies.	
Autumn Gold	90	F1	An early variety growing to 7-10 lbs. and 10-12" in diameter. Fruits are yellow turning to deep golden-orange. The seeds are great roasted. AAS in 1987.	
Baby Boo	95-100	OP	Pumpkins are white, about 3" in diameter, and have a variable shape. The white flesh is edible. A great option for holiday decorating and displays. Turns yellowish at full maturity. Extremely long keeper if properly cured.	
Big Max	110-120	OP	Large, round, red-orange fruits are typically 30-50 lbs. but can reach 100 lbs. A show pumpkin that is fine for carving. The yellow-orange flesh is good for pies, canning, and freezing.	
Bumpkin	85	F1	Tiny, 6-8 oz., bright orange pumpkins have dark green, strong handles. A cute addition to fall displays. Plants have a space-saving, semi-bush habit and intermediate resistance to powdery mildew.	

<u>Variety</u>	<u>Days to Maturity</u>	<u>Type*</u>	<u>Plant Description</u>	<u>Picture</u>
Celebration	95	F1	Beautiful and excellent for eating. 1.5 lb fruits are striped orange, cream, and green and have a high sugar content. Plants are a compact bush-type and powdery mildew resistant.	
Cinderella	105-110	OP	AKA Rouge Vif d'Etampes. A French heirloom growing to 10-25 lbs. and a 15" diameter. Fruits are flattened, vivid reddish-orange, and deeply ribbed. Great for culinary and ornamental use.	
Fairytale	110-125	OP	AKA Musquee de Provence. A French heirloom with a flattened, deeply lobed shape and tan/orange and green mottling. A favorite for cooking in France and stores well.	
Galeux d'Eysines	95-105	OP	French heirloom growing to 10-15 lbs. with glowing peach skin decorated with sparkly warts caused by sugar escaping through the skin as the pumpkin matures. You can lightly scratch designs or names in the skin and the warts will grow in that design. Fruits are round and flattened, and flesh is deep orange and very sweet. Makes wonderful soup, pies, and pastries. Stores well up to 6 months.	
Howden	100-115	OP	20-30 lb fruits are deep orange with well-defined ribs and sturdy handles. Symmetrical shape varies from squat to round to upright oval. This is the industry standard for carving pumpkins. We grew Howden in the Edwards pumpkin and gourd garden and were very impressed. Tolerates black rot. Stores well	
Jack Be Little	95	OP	Small, flattened fruits are 3-4" across and orange with prominent ribbing. Use for table decorations, carving, or cooking. Long storage if cured properly. Sensitive to certain viral diseases. Short, 5' vines are good for small gardens.	
Jarrahdale	95-100	OP	A specialty pumpkin from New Zealand with 6-10 lb., 10" wide, flattened, ribbed, light bluish-gray fruit. Beautiful in fall displays. Firm orange flesh is great for cooking. A long keeper.	
Kakai	100	OP	A specialty pumpkin from Japan. Fruits are orange with black striping, variably shaped, 5-8 lbs., and very ornamental. Produces large seeds that are delicious when roasted. Semi-bushing plants.	
Knucklehead	105	F1	Unusually warty orange pumpkin with 12-16 lbs., 12" tall x 10" wide, and roughly oval fruits. One of the Super Freak series especially bred for Halloween carving - makes a spooky lantern! Also delicious and sweet when baked.	
Lady Godiva	95	F1	A pumpkin noted for its delicious and nutritious seeds. Hullless, green seeds can be eaten raw or roasted. Attractive fruits are orange with dark green stripes. Vigorous vines produce 6-10, 5-8 lbs pumpkins.	
Long Island Cheese	110	OP	Tan, 6-10 lbs pumpkins are flattened, ribbed, and reminiscent of a wheel of cheese. A good pie variety with long storage.	
Lumina	90	F1	Pumpkins have smooth white skin are round to slightly flattened growing to 15-20 lbs. Good for painting, carving, in displays, and for cooking.	

<u>Variety</u>	<u>Days to Maturity</u>	<u>Type*</u>	<u>Plant Description</u>	<u>Picture</u>
Marina Di Chioggia	100	OP	An heirloom pumpkin from Italy that yields 6-12 lbs. fruits with bumpy, ribbed, grayish-green rinds. Highly ornamental, and flesh is delicious.	
Mini Harvest Blend	95	F1/OP mix	A mixture of multiple varieties of mini pumpkin seed, so it will be a fun surprise to see which ones you get! The orange and/or white pumpkins only weigh 4-6 oz. which is not only cute, it's a great size for individual servings, and these pumpkins have a sweet and nutty flavor. Plants are semi-bush.	
Orange Smoothie	100	F1	Pumpkins are bright orange, round with mild ribbing. Bush-type plants produce about 5 5-8 lbs fruits.	
Polar Bear	100	F1	A large, 30-65 lbs., white pumpkin produced on vines that are vigorous and long. The fruit is smooth and beautiful and excellent for painting. Retains its color after harvest if kept in a sunny spot.	
Small Sugar	100-110	OP	Heirloom variety with orange, 6-10", round, 6-8 lbs pumpkins. Flesh is thick, sweet, and fine-textured... terrific for pies and canning. Keeps well.	
Spirit	100	F1	Bright orange, 10-15 lbs., 12" across x 14" tall pumpkins with strong handles. Good for pies and carving. Plants have a semi-bushing habit. AAS in 1977.	
Sugar Pie	88-100	OP	A small pie pumpkin from New England with orange, ribbed fruit growing to 4-5 lbs. Fine-grained, sweet flesh is perfect for pies and other recipes. Also cute as jack o'lanterns. An heirloom first described 1863.	
Triple Treat	110		Great for carving, tasty in pies, and nutritious seeds... a triple treat! Fruits are bright orange, lightly ribbed, and grow to about 9".	
Wee-B-Little	85		Mini, 1 lb pumpkins ripen from yellow to bright orange and have smooth skin and spineless stems. Bush-type plants produce about 8 pumpkins.	

*Type: Plants may be F1 hybrids or open pollinated (OP). To save seeds that will retain the characteristics of a given variety, choose an open pollinated variety and plant away from other plants to avoid cross pollination.
